PROFILE

Ambitious and results-driven Information Technology graduate with practical exposure to software development, web technologies, and AI-powered solutions. Since then I have honed my skills in Python and JavaScript and full stack development. Well-organized and self-directed, with demonstrated ability to work independently or as part of a team to solve problems. With a passion for developing innovative IT solutions and staying ahead of the curve.

EXPERIENCE

Project Based Experience

- AI-Driven Virtual Helper (Final Year Project)** 2025
 - Create an AI-Powered Assistant (NLP, TensorFlow, speech recognition)
 - Combined chatbot capability | voice interaction | real-time task execution
- Purchase Website for After-School Classes (3rd Year)** 2024
 - Responsive e-commerce platform for online course purchases.
 - Established secure payment systems and easy navigation.
- Social Media Platform (2nd Year)** 2023 - 2024
 - Developed a full-stack social media application with user authentication.
 - Enabled real-time messaging, posts, and user engagement features.
- Space Invaders Game (Second Year)** 2023
 - Created a classic arcade-style browser game with HTML, CSS and JavaScript.
 - Scoring, smooth animation, and responsive controls added.
- Bookstore Project (1st Year)** 2022
 - Created a digital bookstore system with cataloging and purchase functionality.
